OUR RICHMOND NEWS LETTER

Governor Tyler Will Submit His Claims to Democratic Caucus.

JUST WHERE HE STANDS

He Answers Questions of the Martinists by Asking a Few Himself—Senator Martin Explains His Position—Company to Organize to Build Auto-Mobiles—Candidates for Labor Commissioner—J. W. Southard a Candidate.

(Special to Virginian-Pilot.)

Richmond, Oct. 19.—The two Senatorial candidates each had something to say to-day concerning the situation. As published in this morning's Virginian-Pilot, friends of Senator Martin have been charging Gov. Tyler with promoting the candidacy of Independents, and have been asking whether the Governor would abide by the decision of the Democratic caucus, and not accept a nomination at the hands of Republicans or Independents. The Governor said this morning:

"My letter announcing my candidacy fully stated that I would submit my claims to a Democratic caucus, and I have not changed any of my own declarations."

In referring to the men who are running as Independents the Governor was perfectly frank in stating that he had not written a line or given encouragement to them in the remotest degree. The long and faithful service of Governor Tyler to the Democratic party in the State makes too splendid a record to be besmirched now by any remote alliances with its opponents, and he feels, not without good reason, that the constant questioning of his feelings and purposes are unworthy, and it is not likely that he will put himself in the attitude of declaring his Democracy over and over again to suit the trifling propositions of thoughtless people.

THE GOVERNOR'S ATTITUDE.

It has always been well known that Governor Tyler did not want to accept the call made upon him by the leaders in the May Conference and he only announced his candidacy when he thought there was a demand for him by a large party following within the regular organization. He has not complained at the action of any county in the State after their nominations were made, and whatever he may feel about the condition of affairs, or the result of the election, he is not going to do anything that has a tendency to disrupt or disorganize the dominant party which he represents in the executive chair.

ASKS A FEW QUESTIONS.

The Governor said that as so many queries are being asked of him by the Martin people, he would like to ask a few questions himself. He wished to know whether it was by accident or design that only the Tyler candidates have Republicans moving against them. He seemed to him, he said, that there was a curious sort of an understanding between certain prominent Democratic office-holders and the Republican leaders.

SENATOR MARTIN TALKS.

Senator Martin talked freely concerning the situation this morning. Regarding the Independents, he said: "I am not giving them a moment's care or concern, for I am sure that there can never be a sufficient number of them to form any coalition with the Republicans or Populists that could work an injury to the Democratic party as represented in the Legislature."

"I know," he continued, "of over one hundred, and possibly one hundred and fifteen, loyal Democrats who have been nominated, and who cannot be beaten, who are favorable to me as my own successor to the Senate, and I have no fear as to the result."

"I am working for the success of every Democratic nominee for the Legislature who has been regularly put forth by the party, regardless of who he may favor for the United States Senate."

Senator Martin spoke of the methods being employed by some of the Independents, and in referring again to the election of any of them to the Legislature, he said:

"I do not believe that anybody who knows me in Virginia would have to be told, but I would not go to the United States Senate as the nominee of the regular caucus, or the regularly chosen Democratic members of the Legislature, and it is only through them that I ask any consideration in the coming election."

The Senator referred briefly to the matter of the nominations all having been made, and the status of affairs evidently seemed to please him.

CHAIRMAN ELLISON STILL HOPEFUL.

Chairman J. Taylor Ellison has returned to the city from a business trip in which politics cut no figure.

His attention was called to the special from Warsaw in the morning's papers to the effect that the Lancaster Committee had rejected the proposition that delegates to the Downing Convention reconvene and make a nomination, and insisting that the nomination be made by the two county committees.

"I am still hopeful," said Mr. Ellison, "that some common ground will be found upon which these factions can get together. While there's life there's hope."

From the tone of the State Chairman, however, it is evident that his hope is but a faint one.

It now seems evident, unless something is done very quickly, that there will be no "regular" candidate in this district, although there will be no lack of candidates. If no nomination is made any one who is elected must be regarded as an Independent, and as such can have no voice in the Democratic caucuses.

It is needless to say that every effort will be made to prevent such a thing happening. Eighteen days yet remain to work for harmony.

The politicians all agree that the fight in tide of light will be to a finish, with the result extremely doubtful.

In Lunenburg, there is little doubt that a "regular" Democrat will come to the House, as the fight there will

doubtless be carried on within the party lines.

TO MAKE AUTOMOBILES.

Captain Andrew Pizzini, of this city, has organized a company, which will apply to the City Council for a charter to manufacture automobiles. The capital stock will not be less than \$100,000.

THE GOVERNOR'S MAIL.

Governor Tyler's mail brought in today another batch of applications for the place of Commissioner of Labor, together with voluminous endorsements of the respective applicants. The Executive files these applications as fast as they come to him. They are so numerous that he has decided that it would be inexpedient to attempt to acknowledge receipt of them. At the proper time he will go over the applications and the endorsements, which he will carefully consider before making a selection of an appointee to the place.

ATTEMPT AT SUICIDE.

Annie, the seventeen-year-old wife of Thomas Shaw, took poison this morning in the presence of her husband, and her life was saved with difficulty. She claims that her husband left her immediately after marriage. Mrs. Shaw is a beautiful young woman.

PRESIDENT TYLER'S GRAVE.

For thirty-seven years the resting place of ex-President John Tyler has been unmarked, but the grave will hereafter be known. The Hollywood Cemetery Company, which has for more than a quarter of a century cared for the grave of a nation's chief executive, has decided to erect a headstone over his grave, and the visitor may know where the illustrious, though seemingly forgotten Virginian sleeps.

CANDIDATE FOR THE HOUSE.

Mr. J. W. Southard, of Henric county, has declared himself a candidate for the House of Delegates and has filed his notice with the clerk of the county. Mr. Southard is an ex-sheriff of the county, which office he held during the Republicans before Henric county was deemed by the Democrats. He has been in very bad health for some time.

Eggleston, of Philadelphia, who represents himself and other capitalists of the Quaker City, for \$12,000.

Before the sale was consummated between 500 and 1,000 tons of ore was taken out, and it was of such good quality, that the purchasers paid \$5,000 down, and are ready to pay the balance when the necessary papers are prepared.

The purchasers are now in Philadelphia getting all necessary machinery to mine and handle the ore on a large scale.

Work on the Clay Company's Plant Progressing Rapidly.

A Verdict for Corbitt—Cost of Fighting Smallpox—Observers of Miss Alida Beamon—A Preacher's Nuptials—Brevities.

(Special to Virginian-Pilot.)

Suffolk, Va., Oct. 19.—The work of building the Suffolk Clay Company's plant is progressing rapidly. A 100-horse power boiler came to-day and will soon be put in place. A contract was made to-day for the construction of a big dryer, which makes it possible to manufacture bricks in winter. The plant will be in operation by early November. The Officers of the company are: C. A. Shoop, president; N. R. Withers, secretary; Harry L. Jacobs, general manager. The site is about a mile west of Suffolk, where the clay is said to be as good as any in the country.

WHAT THEY WILL MAKE.

VERDICT FOR CORBITT.

Corbitt wins in the suit which Bruce brought against him. When they had been out three hours this afternoon the jury came down, after being sent for, and said they found for the defendant. The suit began yesterday morning. The case hinged on the location of a line, which was never proven to the jury's satisfaction. The lawyers spoke in this order: R. W. Withers, E. E. Holland, Lee Britt and Judge Rawles. The jurors did not have any dinner.

A chancery suit in which the litigants were W. L. Royster, of Suffolk, and Ames & Burke, of Norfolk, was argued by W. S. Holland, of Windsor, and Lawyer Jenkins, of Norfolk. When Judge Prentiss took the papers he remarked that both sides had made out very weak cases.

PAYING FOR SMALLPOX.

The taxpayers will have to come up for the cash it took to fight smallpox last winter. The county supervisors to-day made a levy of 10 cents on \$100 for the special purpose of defraying the expense incident to the epidemic. It cost about \$5,000 to the county of Nansemond exclusive of what Suffolk had to pay. The town got out cheaply. All the supervisors were present.

Nervous Prostration

NERVES ALL ON END.

Nervous, Irritable Spells,

Moving Specks Before the Eyes,

All Cured by Dr. Hallock's Wonderful Electric Pills for Weak, Worn-Out, Nervous People.

Wasting away of the nerve centres, which are the reservoirs of life, is the danger to bear of all human ailments, and unless corrected, ultimately cause Paralysis, Nervous Prostration, and a complete breakdown. Women are especially susceptible to Nervous Troubles. Sometimes their nerves are "all on end," a slamming of a door, anything falling on the floor or any sudden noise will so startle them that they will let anything fall that they may have in their hand. One lady told us that she had on several occasions dropped her baby and she was in constant dread. A few boxes of Dr. Hallock's Wonderful Electric Pills cured her, made her nerves strong and completely restored her nerve centres, and she was able to go about her daily labors without fear of dropping baby and full of confidence. Another effect of the wasting away of the nerve centre is what people call "nervous spells." You feel tired, not strong, and at the least annoyance you have "a spell," and you feel as though you would die. Your throat feels like it had a tumor in it, and the effect to swallow is painful. This is Hysteria. Dr. Hallock's Wonderful Electric Pills will cure this malady by restoring the nerve centres. The pills are made for this very purpose and are different from any other Nerve or Blood Remedy. Give them a trial.

Dr. Hallock's Electric Pills thoroughly tested for past 50 years. They are perfectly harmless and can be taken with safety by the most delicate.

I am a farmer located near Stony Brook, one of the most malarious districts in this State, and was bothered with malaria for years, at times so I could not work, and was always very constipated as well. For years I had malaria so bad in the spring, when engaged in plowing, that I could do nothing but shake. I must have taken about a barrel of quinine pills besides dozens of other remedies, but never obtained any permanent benefit. Last fall, in peach time, I had a most serious attack of chills and then commenced to take Ripans Tablets, upon a friend's advice, and the first box made me all right and I have never been without them since. I take one Tabule each morning and night and sometimes when I feel more than usually exhausted I take three in a day. They have kept my stomach sweet, my bowels regular and I have not had the least touch of malaria nor splitting headache since I commenced using them. I know also that I sleep better and wake up more refreshed than formerly. I don't know how many complaints Ripans Tablets will help, but I do know they will cure any one in the condition I was and I would not be without them at any price. I honestly consider them the cheapest-priced medicine in the world, as they are also the most beneficial and the most convenient to take. I am twenty-seven years of age and have worked hard all my life, the same as most farmers, both early and late and in all kinds of weather, and I have never enjoyed such good health as I have since last fall; in fact, my neighbors have all remarked my improved condition and have said, "Say, John, what are you doing to look so healthy?"

A new style picture containing THE RIPANS TABLETS in a paper carton (without glass) is now for sale at some drug stores—FOR FIVE CENTS. This low-priced set is intended for the poor and the charitable. One dozen of the five-cent pictures (250 pictures) can be had by mail by sending forty-eight cents to the Hiram Chittenden Company, No. 10 Spruce Street, New York—27 a single picture (not including postage) will be sent for five cents.
